

TrueType

```
classDiagram
    class TrueType {
    }
    class ros_message_traits {
    }
    TrueType <|-- ros_message_traits
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'TrueType'. It has three horizontal compartments: the top one contains the class name, and the two below are empty. Below this box is a blue arrow pointing upwards, ending in a hollow triangle, which represents inheritance. The arrow points to a larger, shaded gray box below. This box is divided into three horizontal compartments. The top compartment contains the text 'ros::message_traits', '::IsMessage< ::jaco', '_msgs::StopResponse_', '< ContainerAllocator >', and 'const >'. The two bottom compartments are empty.

ros::message_traits
::IsMessage< ::jaco
msgs::StopResponse
< ContainerAllocator >
const >
