

FalseType

```
classDiagram
    class FalseType {
    }
    class SpecializedClass {
        ros::message_traits::HasHeader< ::jaco_msgs::StopResponse_< ContainerAllocator > >
    }
    SpecializedClass --|> FalseType
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'FalseType'. It has three horizontal compartments: the top one contains the text 'FalseType', and the two below it are empty. Below this box is a blue arrow pointing upwards, indicating inheritance. The arrow points to a larger, shaded gray box representing a specialized class. This box has three horizontal compartments. The top compartment contains the text 'ros::message\_traits::HasHeader< ::jaco\_msgs::StopResponse\_< ContainerAllocator > >'. The two bottom compartments are empty.

ros::message\_traits  
::HasHeader< ::jaco  
\_msgs::StopResponse\_  
< ContainerAllocator > >
