

FalseType

```
classDiagram
    class FalseType {
    }
    class SpecializedClass {
        ros::message_traits::Header< ::jaco_msgs::FingerPosition >
    }
    FalseType <|-- SpecializedClass
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'FalseType'. It has three horizontal compartments: the top one contains the name 'FalseType', and the two below it are empty. Below this box is a blue arrow with a hollow triangular head pointing upwards. This arrow points to the top compartment of a larger class box below. This lower box is divided into three horizontal compartments. The top compartment contains the text 'ros::message_traits', '::Header< ::jaco', '_msgs::FingerPosition', and '< ContainerAllocator > >'. The two bottom compartments are empty.

ros::message_traits
::Header< ::jaco
_msgs::FingerPosition
< ContainerAllocator > >
