

TrueType

```
classDiagram
    class TrueType {
    }
    class ros_message_traits {
        ::IsFixedSize< ::jaco_msgs::HomeArmRequest_< ContainerAllocator > >
    }
    TrueType <|-- ros_message_traits
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'TrueType'. It has three horizontal compartments: the top one contains the name 'TrueType', and the two below are empty. Below this box is a blue arrow with an open triangular head pointing upwards. This arrow originates from the top of a larger, gray-shaded class box. The gray box is divided into three horizontal compartments. The top compartment contains the text 'ros::message_traits', '::IsFixedSize< ::jaco', '_msgs::HomeArmRequest', and '_< ContainerAllocator > >'. The two bottom compartments are empty.

ros::message_traits
::IsFixedSize< ::jaco
_msgs::HomeArmRequest
_< ContainerAllocator > >
