

TrueType

```
classDiagram
    class TrueType
    class ros_message_traits["ros::message_traits"]
    ros_message_traits --|> TrueType
```

The diagram illustrates an inheritance relationship. A box at the bottom, representing the base class `ros::message_traits`, is divided into three horizontal sections. The top section contains the text `ros::message_traits`, `::IsFixedSize< ::jaco`, `_msgs::HomeArmRequest`, `_< ContainerAllocator >`, and `const >`. The middle and bottom sections are empty. A blue arrow with an open triangular head points from the top of this box to the bottom of a box above it. The box above is labeled `TrueType` in its top section and has two empty sections below it.

ros::message_traits
::IsFixedSize< ::jaco
_msgs::HomeArmRequest
_< ContainerAllocator >
const >
