

FalseType

```
classDiagram
    class FalseType {
    }
    class SpecializedClass {
        ros::message_traits::IsFixedSize< ::jaco_msgs::ArmPoseAction_> ContainerAllocator > >
    }
    SpecializedClass --|> FalseType
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'FalseType'. It has a header section and two empty body sections. Below it is a larger class box with a grey background, representing a specialization. This box contains the text 'ros::message_traits::IsFixedSize< ::jaco_msgs::ArmPoseAction_> ContainerAllocator > >' in its header section and two empty body sections. A blue arrow with an open triangular head points from the specialization box up to the 'FalseType' box, indicating inheritance.

ros::message_traits
::IsFixedSize< ::jaco
msgs::ArmPoseAction
< ContainerAllocator > >
