

TrueType

```
classDiagram
    class TrueType
    class ros_message_traits["ros::message_traits"] {
        ::lsFixedSize< ::jaco_msgs::FingerPosition
        _< ContainerAllocator > const
    }
    ros_message_traits --|> TrueType
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'TrueType'. Below it is a larger, shaded class box representing 'ros::message_traits'. A blue arrow with an open triangular head points from the 'ros::message_traits' box up to the 'TrueType' box, indicating that 'TrueType' inherits from 'ros::message_traits'. The 'ros::message_traits' box contains the following text: 'ros::message_traits', '::lsFixedSize< ::jaco', '_msgs::FingerPosition', '_< ContainerAllocator >', and 'const >'. The box is divided into three horizontal sections by two lines.

ros::message_traits
::lsFixedSize< ::jaco
_msgs::FingerPosition
_< ContainerAllocator >
const >
