

TrueType

```
classDiagram
    class TrueType
    class ros_message_traits["ros::message_traits<br>::IsFixedSize< ::jaco<br>_msgs::FingerPosition<br>_< ContainerAllocator > >"]
    TrueType --|> ros_message_traits
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'TrueType'. Below it is a larger class box representing 'ros::message_traits::IsFixedSize< ::jaco_msgs::FingerPosition_< ContainerAllocator > >'. A blue arrow with an open triangular head points from the bottom of the lower box to the bottom of the 'TrueType' box, indicating that 'TrueType' inherits from the 'ros::message_traits' specialization.

ros::message_traits
::IsFixedSize< ::jaco
_msgs::FingerPosition
_< ContainerAllocator > >
