

Message

```
classDiagram
    class Message
    class Request["jaco_msgs.srv._Start.Request"]
    Request --|> Message
```

The diagram shows a class hierarchy. At the top is a class box labeled 'Message'. Below it is a larger class box for 'jaco_msgs.srv._Start.Request'. A blue arrow with an open triangle head points from the 'Request' box up to the 'Message' box, indicating that 'Request' inherits from 'Message'.

jaco_msgs.srv._Start.Request
