

FalseType

```
classDiagram
    class FalseType {
    }
    class SpecializedClass {
        ros::message_traits::IsFixedSize< ::jaco_msgs::SetFingersPositionActionResult_< ContainerAllocator > >
    }
    FalseType <|-- SpecializedClass
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'FalseType'. It has a single compartment with the name and two empty compartments below it. Below 'FalseType' is a larger class box with a dark grey background. This box contains the text 'ros::message_traits', '::IsFixedSize< ::jaco', '_msgs::SetFingersPositionAction', and 'Result_< ContainerAllocator > >'. It also has two empty compartments below the text. A blue arrow with an open triangular head points from the top of the specialized class box to the bottom of the 'FalseType' box, indicating inheritance.

ros::message_traits
::IsFixedSize< ::jaco
_msgs::SetFingersPositionAction
Result_< ContainerAllocator > >
