

TrueType

```
classDiagram
    class TrueType
    class ros_message_traits["ros::message_traits"]
    ros_message_traits --|> TrueType
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'TrueType'. It has three horizontal compartments: the top one contains the name 'TrueType', and the two below it are empty. Below this box is a blue arrow pointing upwards, ending in a hollow triangle, which represents an inheritance relationship. The arrow points to the bottom compartment of a larger class box below. This bottom box is shaded gray and contains the text 'ros::message_traits'. The entire bottom box is divided into three horizontal compartments, with the text spanning the top two. The bottom compartment of this box is also shaded gray and is empty.
