

TrueType

```
classDiagram
    class TrueType
    class ros_message_traits["ros::message_traits<<IsMessage<<::jaco_msgs::ArmPoseResult<<ContainerAllocator>>>"]
    TrueType --|> ros_message_traits
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'TrueType'. It has three horizontal compartments: the top one contains the name 'TrueType', and the two below it are empty. Below this box is a blue arrow pointing upwards, ending in a hollow triangle, which represents an inheritance relationship. The arrow points to a larger, shaded gray box below it. This box is divided into three horizontal compartments. The top compartment contains the text 'ros::message_traits', '::IsMessage< ::jaco', '_msgs::ArmPoseResult', and '< ContainerAllocator > >'. The two bottom compartments are empty.

ros::message_traits
::IsMessage< ::jaco
_msgs::ArmPoseResult
< ContainerAllocator > >
