

FalseType

```
classDiagram
    class FalseType {
    }
    class SpecializedClass {
        ros::message_traits::HasHeader< ::jaco_msgs::HomeArmRequest_< ContainerAllocator > >
    }
    FalseType <|-- SpecializedClass
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'FalseType'. It has a top section with the name and two empty rectangular sections below it. Below 'FalseType' is a larger class box with a grey background. This box contains the text 'ros::message_traits::HasHeader< ::jaco_msgs::HomeArmRequest_< ContainerAllocator > >' in its top section, followed by two empty rectangular sections. A blue arrow with an open triangular head points from the top section of the bottom box to the bottom edge of the 'FalseType' box, indicating inheritance.

ros::message_traits
::HasHeader< ::jaco
_msgs::HomeArmRequest
_< ContainerAllocator > >
