

FalseType

```
classDiagram
    class FalseType {
    }
    class SpecializedClass {
        ros::message_traits::IsFixedSize< ::jaco_msgs::HomeArmResponse_< ContainerAllocator > >
    }
    SpecializedClass --|> FalseType
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'FalseType'. It has three horizontal compartments: the top one contains the name 'FalseType', and the two below it are empty. Below this box is a blue arrow pointing upwards, ending in a hollow triangle, which represents a generalization (inheritance) relationship. The arrow points to a larger class box below. This lower box is divided into three horizontal compartments. The top compartment is shaded gray and contains the text 'ros::message_traits::IsFixedSize< ::jaco_msgs::HomeArmResponse_< ContainerAllocator > >'. The two bottom compartments are also shaded gray but are empty.

ros::message_traits
::IsFixedSize< ::jaco
_msgs::HomeArmResponse
_< ContainerAllocator > >
