

FalseType

```
classDiagram
    class FalseType {
    }
    class SpecializedClass {
        ros::message_traits::HasHeader< ::jaco_msgs::FingerPosition < ContainerAllocator > const >
    }
    SpecializedClass --|> FalseType
```

The diagram illustrates a class hierarchy. At the top is a class box labeled 'FalseType'. It has three horizontal compartments: the top one contains the name, and the two below are empty. Below this box is a blue arrow with an open triangular head pointing upwards. This arrow originates from a larger, shaded gray box below. The top compartment of this gray box contains C++ code, while the two lower compartments are empty.

```
ros::message_traits
::HasHeader< ::jaco
_msgs::FingerPosition
_< ContainerAllocator
> const >
```
